

Smart Bale Locator Agritech

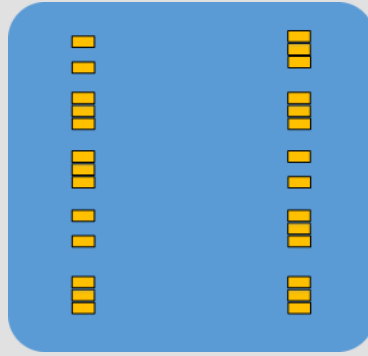

NARAS

THIS SYSTEM IS A SOFTWARE FEATURE THAT HELPS PRESSED BALES TO BE DROPPED IN GROUPS CLOSE TO EACH OTHER WITH THE HELP OF THE GLOBAL POSITIONING SYSTEM IN ORDER TO FACILITATE BALE COLLECTION IN THE FIELD. THE SYSTEM ENSURES THAT THE BALES IN THE FIELD ARE GROUPED LINEARLY, THUS REDUCING FUEL AND LABOR COSTS AS WELL AS SAVING TIME DURING BALE COLLECTION.

The system allows existing large square balers to deliver the pressed bales to the field in groups of 2 or 3. Bale drop points are analyzed and calculated precisely by the software to minimize the travel time during bale collection.
